

St Osyth

Distance: 2 miles

Time: 1 hour

A circular walk around St Osyth Boating Lake

Start your walk at the footpath sign opposite The Priory, taking the right hand path down a wide track where you have expansive views of the lake. Continue on the track, veering left through the farmland and continuing on to cross the lake by a reed bed. The path then goes uphill to join another track at the top of the hill, where you turn right. This track eventually joins Wigboro Lane and then Point Clear Road.

Turn right here, crossing the road to a footpath alongside the road. Follow this path, passing the boat yard on your left and boating lake on your right until you pass the war memorial and are back at your starting point.
