## **Adjacent The Veldt, Little Clacton Road, Great Holland**

Great Holland has been accepted on appeal as a sustainable village. The village is able to accept further development that would be socially and environmentally appropriate.

The site shown on the attached plan affecting land adjacent to The Veldt, Little Clacton Road, Great Holland would meet the three tests of sustainability as set out in the NPPF. This land is directly adjacent to the village settlement boundary. By allowing development across the frontage of this site, an appropriate and reasonable level of development could be provided to help sustain and improve local services without affecting the rural character of the area. The site is within walking distance of local services and will be in keeping with the frontage development elsewhere along the road. Vehicular access to the site would meet the County Council visibility splays while the development would not necessitate the removal of any trees or hedgerow.

At the heart of The National Planning Policy Framework is the presumption in favour of sustainable development and advises local planning authorities should follow this approach and encourage the effective use of land, providing that it is not of high environmental value.

The scheme is considered to be in a sustainable location as the development is situated close to the defined development boundary for the village. Great Holland is further identified by the Council as being a settlement where some development can take place. It is therefore considered by the Council to be a sustainable location for growth to support the vitality and vibrancy of the rural area.

Not only has the Council extended the settlement boundary through the grant of planning permission for the development of greenfield plots within the area, including at 'The Paddocks' Kirby Road which was granted in June 2013 (ref 13/00417/FUL), and a plot adjacent to Holland House, Kirby Road granted in August 2014 (reference 14/00540/FUL), planning permission has recently been granted on appeal for the development of two dwellings outside but immediately adjacent to the village development limits on land adjacent the Lion's Den PH and for three dwellings at Larges Farm, Rectory Road. Each of these sites have similar characteristics to the current proposal.

As detailed above, the village has a number of amenities in close proximity to the site. These include a public house, community hall, church hall, children's play area and farm shop while there is also a business park and motor repair garage. The tenancy of the village shop and

convenience store has unfortunately altered, with the incumbents deciding to close their business. However, it is understood the shop may re-open at a future date.

There are five separate bus services that operate along Rectory Road by three different operators, namely No's 7, 8, 9, 704 and 784. The latter is operated by National Express and provides a twice daily direct service to Central London. There are a total of 57 bus journeys occur each working day in each direction, connecting the site with Clacton-on-Sea, Frinton-on-Sea, Essex University and Colchester town centre.

Great Holland is located less than 1500m to the south of Kirby Cross with its full range of shops, restaurants, doctors surgery, village hall, community centre and primary school amongst the many other attractions. Moreover, Kirby Cross railway station provides frequent direct rail links into London Liverpool Street, Colchester and Frinton-on-Sea. Adjacent to the station is also an extensive industrial estate providing considerable local employment. It can therefore only be concluded that the site is situated within a sustainable location.

The proposal would contribute economically to the area by supporting existing construction jobs and also increasing the population within the village to help sustain local services and amenities.

As a result the scheme would meet the comments set out within paragraph 14 of the NPPF in respect of a positive opportunity to meet the development needs of the area. Moreover, the allocation of this site would accord with the core planning principles as set out within paragraph 17 by ensuring the scheme enhances and improves the place in which people live their lives. The proposal is not only sustainable, it is deliverable as required by paragraphs 47 & 49 of the NPPF.
