Homestead Caravans, Weeley

Weeley is recognised as being a key settlement able to accept further development that would be socially and environmentally appropriate. However, it is considered that some of the proposals for the village as suggested by the Council are not only too extensive but also insensitive. The site shown on the attached plan is a brownfield site with direct access onto Thorpe Road. The area includes numerous workshop buildings, shop, reception/office and café together with a rather unsightly caravan sales display area. It covers an area of approximately 1.5 hectares and could accommodate approximately 30 dwellings while retaining facilities for the caravan centre. This scale of development would also allow some social housing to be provided in the heart of the village. The development of part of the site would also enable further investment to be provided to upgrade the existing caravan park with additional landscaping and facilities for visitors.

With the current development on the opposite side of the road, the site is not only a sustainable location but would also incorporate redevelopment of a brownfield site in the centre of the community. As a result the scheme would meet the comments set out within paragraph 14 of the NPPF in respect of a positive opportunity to meet the development needs of the area. Moreover, the allocation of this site would accord with the core planning principles as set out within paragraph 17 by ensuring the scheme enhances and improves the place in which people live their lives. The proposal is not only sustainable, it is deliverable as required by paragraphs 47 & 49 of the NPPF.
