## **Bromley Road, Frating**

**Frating has been accepted on appeal as a sustainable village. The village is able to accept further development that would be socially and environmentally appropriate.**

**The site shown on the attached plan could accommodate up to 4 dwellings and is located on the opposite side of Bromley Road to the development of 49 houses recently allowed on appeal. The site is under single ownership and has no development constraints. It is in a sustainable location with bus stops within walking distance. It is also in close proximity to two public houses, play/open spaces. It would meet the three tests of sustainability as set out in the NPPF. By allowing development, an appropriate and reasonable level of development could be provided to help sustain and improve local services without affecting the rural character of the area. Vehicular access to the site would meet the County Council visibility splays while the development would not necessitate the removal of any trees or hedgerow.**

**At the heart of The National Planning Policy Framework is the presumption in favour of sustainable development and advises local planning authorities should follow this approach and encourage the effective use of land, providing that it is not of high environmental value.**

**The proposal would contribute economically to the area by supporting existing construction jobs and also increasing the population within the village to help sustain local services and amenities.**

**As a result the scheme would meet the comments set out within paragraph 14 of the NPPF in respect of a positive opportunity to meet the development needs of the area. Moreover, the allocation of this site would accord with the core planning principles as set out within paragraph 17 by ensuring the scheme enhances and improves the place in which people live their lives. The proposal is not only sustainable, it is deliverable as required by paragraphs 47 & 49 of the NPPF.**
