

### **2017/2018 Strategic Priorities**

An analysis review of overall recorded crime together with an evaluation of responses from public engagement identifies the key priorities for the Tendring Community Safety Partnership should be the following:

#### **1. Tackling Anti Social Behaviour and Acquisitive Crime**

Identifying and support repeat and vulnerable victims. Identify hotspot locations and / or spikes in crime trends. Improve perceptions and facilitate local problem solving to address issues.

#### **2. Protecting Vulnerable People from Hidden Harms**

Identifying and supporting repeat and vulnerable victims, educating both young and older people and encouraging proactive reporting of hate crime and domestic abuse. There will also be a clear emphasis on emerging issue of gangs and youth violence, Child Sexual Exploitation, Preventing Violent Extremism, Modern Slavery and Human Trafficking and substance misuse (These are often termed "Hidden Harms"). The CSP will aim to increase the understanding and awareness of the hidden harms our communities face, and encourage those who are suffering to come forward and seek help from the partnership.

Current risks within Tendring do not come from the more traditional crimes, but from hidden harms as described above.

#### **3. Reduce Reoffending**

Reduce youth offending and reoffending of adults and young people, thereby reducing instances of domestic burglary, most serious violence, personal robbery and drug offences.

Reoffending affects families and communities and by reducing it we can help increase community cohesion and improve their quality of life. The fear of crime whether real or perceived can also have a very serious impact upon people and communities. Reducing reoffending can help build safer communities and increase public confidence in the criminal justice system.

Underpinning the above strategic priorities will be effective partnership working, the partnership will also work together to meet emerging local threats and trends. This will be achieved by sharing information and data to identify emerging issues, work together to devise and deliver local solutions and target resources accordingly.

This plan shows the priorities for Tendring Community Safety Partnership (CSP) for 2017 - 2018.

The priorities have been identified through our Strategic Assessment of crime which involved a detailed analysis of crime, intelligence and public consultation.

The Annual Partnership Plan is supported by funding streams that are collectively pooled together to maximise their impact upon crime reduction.

The Strategic Assessment and Partnership Plans will be refreshed each year to reflect changing priorities, new key issues and emerging crime trends within our communities. This will assist the CSP and its partner agencies to achieve their objectives.

The detailed Partnership Plan set out below, details actions to achieve targets set for our top priorities. However, these may be subject to change if other more urgent crime reduction priorities are identified and need to be addressed or actioned by the CSP.

The delivery of the interventions set out under each of the Key Priorities, managed by Tendring District Council's Community Safety Manager in partnership with all other agencies, statutory and voluntary.

## Tackling Anti Social Behaviour and Acquisitive Crime

Identifying and support repeat and vulnerable victims. Identify hotspot locations and / or spikes in crime trends. Improve perceptions and facilitate local problem solving to address issues.
